EDUCATION ON MISSION

OUR MISSION >>>

To educate, equip, and engage students to be life long learners who are confident about what they learn academically, socially, emotionally and spiritually. Students who will grow into productive, and giving members of society.

WHY A NEW SCHOOL?

Because learning shouldn't be a chore. Our educational system has not changed in over 100 years to adapt to the changing world. U.S. 12th graders ranked 18th out of 21 countries in combined mathematics and science assessments. Students are not faring well on national assessments. The most recent NAEP assessments indicate that less than one third (33%) of U.S. fourth graders are proficient in reading, mathematics, science, and American History. 54% of 16-74 year olds (about 130,000,000 Americans) cannot read at a 6th grade level.

What is happening is not working.

MISSION SERVICES

- >>> Flexible Seating
- >>> Individualized Teaching Methods
- >>> Problem Based Learning
- >>> Executive Functioning Skills, explicitly taught

MISSION DIFFERENCE

We believe all children are unique.

We believe education should be differentiated for all students and accommodations should be a part of each student's learning experience.

We believe this allows students to be equipped for the ever changing world.

We believe through focused teaching and learning, students will gain confidence in who they were created to be.

We believe class sizes should be limited, and good teachers should be able to teach.

WE COULD NOT

DO WHAT WE DO

without you!

FOR OUR DONORS

- **1st grade Donor - \$500** You receive access to bi-weekly newsletter, and personalized thank-you card. Plus, you are helping fund our future generation.
- **2nd grade Donor - \$1,000** All the above plus get 1 month featured in the newsletter.
