

# Mission Academy Newsletter

“Education on Mission”

### Reading Enrichment

Foundational reading to create lifelong learners

### Small Class sizes

This means every student has access to the teacher

### Social Emotional Learning

Teaching more than simple facts, teaching how to live.

## The Problem

The way we have done school has not changed in over 100 years!

When most people think of school their minds immediately go to sitting in a desk, listening as a teacher talks, and homework. Have you ever asked yourself, why do we do it this way? If you have, you're not alone. The way we educate was set up in the pre-industrial period to train people to be factory workers. If we do not change how of what we do, does the why even matter?

1

### DONATE

Go to [mymissionacademy.org](http://mymissionacademy.org) and make a donation! Any amount helps!

2

### GET FEATURED

When you donate on a 2nd grade level your company will be in our next Newsletter

3

### KNOW YOU ARE THE DIFFERENCE

You are changing our community!

## The Solution

With nearly 50% of Americans not being able to read at a 6th grade level, what do we do from here?

We have seen the problem, the education system here in America is flawed on every level. From over crowded classroom sizes, to antiquated teaching methods, if we want better we have to do differently.

This is what Mission Academy is birthed out of. Our method is highly individualized learning, of not just academics, but the whole student. Do you really think you are going to effectively learn math, if you are too hungry to hear anything but your stomach?

Imagine a class size of no more than 15 students, and highly qualified teachers to teach on a much smaller, more individualized level.

With the ability to teach executive functioning, social emotional learning, and kinesthetic, Mission Academy is changing the education system for the better.

**“Changing the way we educate is the first step in changing who we are.”**

Whether we are discussing ways to overcome poverty, or ways to reduce crime, education is critical to every aspect of our lives.

The higher educated someone is, the lower chances they have of living below the poverty line, or committing a crime.

Want to change the our community, change the education of our community!

### WE NEED YOUR HELP!

We are ready to change the way we educate, but we cannot do this without you. Smaller class sizes mean more teachers. Highly individualized learning means more flexibility in curriculum. Social Emotional Learning means more qualified counselors. Kinesthetic learning means more manipulatives.

All this means we need your generosity to get started. Without your help, we cannot make this a reality, and we are forced to keep the status quo. We are forced to not be innovating in our approach to learning, and we continue to fail our students.

Please donate at [mymissionacademy.org](http://mymissionacademy.org) we are a Florida Nonprofit institution, and all donations are tax deductible!
